Monthly Minimum Charge:  
\$13.50

**POWER ADJUSTMENT CLAUSE**

There shall be added to the net monthly bill \$.0001 (one-tenth of one mill) per kilowatt-hour for each whole \$.0001 by which the average net cost of fuel, purchased power, and generator maintenance in combination exceeds 53.0 mills per net kilowatt-hour generated and/or purchased.

In the event purchased power is utilized in lieu of self-generation or in combination therewith, the cost of fuel, purchased power, and generating equipment maintenance shall be added together to arrive at total cost of fuel and purchased power in combination each month, and this combined cost shall be then divided by the net kilowatt hours sold. The resultant adjustment, if any, shall be applicable to the current monthly bill.

Demand Charge - \$6.00 per KVA

**PRIMARY METERING DISCOUNTS**

Customers who are primary metered will receive a 2.0% discount. Primary metered customers that own their own transformers will receive an 8% discount.

**Policy**

Demand level of customer will be reviewed at the end of each calendar year to determine the appropriate rate class.

**DETERMINATION OF KVA DEMAND**

The demand in kilovolt-amperes for billing purposes shall be determined by dividing the maximum demand in kilowatts by the monthly average power factor and shall be rounded to the nearest whole KVA, but in no month shall the demand to be billed be considered as less than 50% of the greatest demand in KVA billed during the preceding eleven months nor in any event less than 100 KVA.
